Introducing Algebra

Evaluating Expressions (Numeric Substitution)

What if.....

$m = 2$, $n = 3$ and $p = 5$, evaluate:

1.) $n - m + p =$

2.) $7m + 4n - 3p =$ $+$ $-$ $=$

3.) $mn - p =$ $-$ $=$

4.) $mnp + 40 =$ $+ 40 =$

5.) $m^n - p =$ $-$ $=$

6.) $m^n + n^n + p^n =$ $+$ $+$ $=$

7.) $\frac{m + n}{p} =$ $+$ $=$ $=$

8.) $\frac{mnp + p^m}{m + n^m} =$ $+$ $=$ $=$
