

# REVIEW

## 1) Complete with climate or weather

- \_\_\_\_\_: the state of the atmosphere in a specific place at a moment.
- \_\_\_\_\_: the usual weather in a place over many years.
- \_\_\_\_\_: is what the forecasters on TV news predict every day,
- \_\_\_\_\_: it takes hundreds, thousands or millions of years.

## 2) Choose the correct weather instrument.

- ❖ The \_\_\_\_\_ measures the amount of liquid precipitation
- ❖ The \_\_\_\_\_ moves its arms and measures wind speed.
- ❖ The \_\_\_\_\_ measures air temperature.
- ❖ The \_\_\_\_\_ turns with the wind and shows which direction the wind is blowing.
