**Luis Pasteur**

Luis Pasteur was born in Dole, France, on December 27<sup>th</sup>, 1822. He discovered that germs and microbes cause diseases. He established methods of sterilization. He was the first person to develop and use vaccines that helped animals and people. He developed *pasteurización*. This is a technique that killed the microbes that contaminated food products but did not destroy the nutrients. He was an extraordinary and talented scientist. He died at the age of 73.
