A sport that I love is snowboarding. Snowboarding is a new sport. It only started forty years ago, but now it's very popular all around the world. Today, snowboarding is even included in the Winter Olympics. People who love surfing in the sea or skateboarding often love snowboarding. It is a fast, exciting sport, but it can also be very dangerous. To do snowboarding you really need only two things: a snowy mountain and a board. But snowboarders can get hurt badly if they fall off. So, they need to wear a helmet on their heads, gloves so their hands are protected and special clothes to protect their knees. Finally, they must always wear goggles to protect their eyes from the bright sun. Snowboarding is an individual sport and the winner of a competition must do many different things. In some snowboarding events, the athlete has to jump very high in the air and stay on the board. In some other events, the snowboarder has to ride very fast between posts. The interesting thing about snowboarding is that new events and new rules are created all the time. Snowboarders are people who love adventure.

1. The article is about the writer's personal experience of the sport.
2. Snowboarding is a winter sport.
3. You don't need special clothes or equipment to snowboard.
4. People who surf or skate often like snowboarding too.
5. Snowboarding is a safe sport.
