### Part 1

I want to talk about the animals that I like. I like the tigers and the pandas more than the others. Tigers have  eyes and majestic furs whereas pandas look cute and pretty. They are both big animals, but they can  fast. Look at those reptiles, snakes and crocodiles. I am amazed by the snakes as it is incredible to move fast without legs, and their colours and  are beautiful, too. Crocodiles! It is funny to drop  after eating their preys, isn't it?, but it is most likely for biological rather than  reasons.

### Part 2

Well... The owls, those interesting  They have the ability to turn their head 270 degrees in each direction, and their eyes are completely  and cannot be moved. That is awesome. And the  Eagles fly at high altitudes. They feed only on fresh prey and never eat  things. When there is a storm, eagles get excited and use the wind of the storm to lift themselves higher far above the  Meanwhile, all the other birds hide themselves in the leaves of the trees. That's why I admire them.
