

## THE PLAN KINGDOM

### 1. Place each characteristic into the right place.

|  |   |
|--|---|
| <p>Most are evergreen trees and bushes.<br/>They produce flowers and fruits which contain seeds.<br/>Apple trees, lavender, grasses and shrubs.<br/>They do not produce flowers or fruits.</p> | <p>Can be deciduous or evergreen trees.<br/>Pine trees and firs.<br/>They produce seeds which are grouped together in cones.<br/>They are flowering plants.</p> |
|--|---|

| GYMNOSPERMS | ANGIOSPERMS |
|-------------|-------------|
|             |             |
|             |             |
|             |             |
|             |             |

### 2. Write M or F

|   |  |                                |
|---|--|--------------------------------|
| <p style="font-size: 24px; margin: 0;">MOSSES</p> |  | Tiny stems and leaves          |
|   |  | Large leaves called fronds     |
| <p style="font-size: 24px; margin: 0;">FERNS</p>  |  | Live in humid and shady places |
|   |  | Vascular plants                |

### 3. Classify these plants

| SEED-PRODUCING |            | SPORE-PRODUCING |
|----------------|------------|-----------------|
| GYMNOSPERM     | ANGIOSPERM |                 |
|                |            |                 |
|                |            |                 |
|                |            |                 |
