

❖ TRAPEZI

- 1 Scrivi la formula per il calcolo dell'area del trapezio.

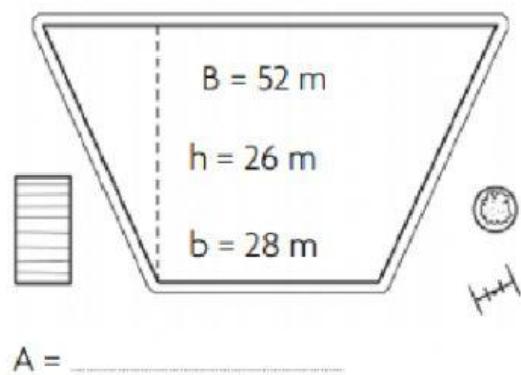

$$A = (B + b) \times h : 2$$

- 2 Calcola le aree dei due cortili a forma di trapezio.

$$A = \underline{\hspace{2cm}}$$

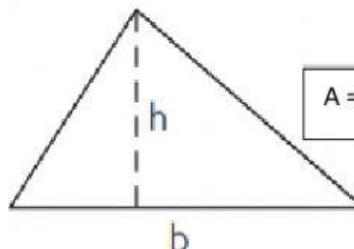

$$A = \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \text{m}^2$$

$$A = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \text{m}^2$$

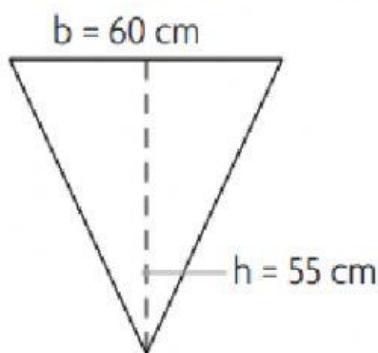

❖ TRIANGOLI

- 1 Scrivi la formula per il calcolo dell'area del triangolo.

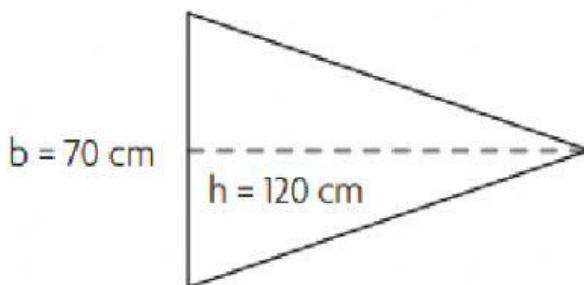

$$A = b \times h : 2$$

- 2 Calcola le aree delle due bandierine.

$$A = \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \text{cm}^2$$

$$A = \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \text{cm}^2$$
