

What's the weather like?

1. Read t	he definitions a	nd choose th	e correct o	option.	
a. This is	the weather of a	place over a lo	ong period	of time:	
	temperature	hun	nidity	climate	
b. This is	water which falls	s to the ground	d from the	clouds:	
	precipitation	temper	ature	humidity	
c. This is	when small drop	lets of water s	tick to part	ticles of dust in	the air:
	air pressure	altit	ude	condensat	ion
d. This is	the water vapou	r present in th	e air:		
	wind	humidit	у	latitude	
2. Unscra	mble the letter	s to form nan	nes of wear	ther instrumer	its. Then,
	em to the pictu	res by writing	g the corre	ect letter in the	e box
next to ea	ach word.				
1. rtea	whe avne				
2. inar	eggua		_ [_]		
3. bem	etroar		- 4		
	emrotree		— <u>H</u>		
	tremone		— 片		
6. gyre	tmhoer				
30 40 50 60 70 20 80 10 90 0	WASTE	T	1	NOTE OF THE PARTY	
a.	b.	c.	d.	e.	f.

3. Use arrows	to match eacl	n type of precipitation	n to its defi	nition.					
a. hail	1. Water	droplets which measure 0.	5mm across						
b. drizzle	drizzle 2. A mixture of rain and snow which melts before it hits the ground								
c. rain	rain 3. Solid precipitation in the form of ice crystals								
d. snow	4. Solid precipitation in the form of balls of ice								
e. sleet	e. sleet 5. Light rain droplets which measure less than 0.5mm across								
4. Drag and dro	op the words t	to answer these quest	ions about	clouds.					
a. Which type of cle	oud do we see du	ring thunderstorms?							
b. Which type of cle	oud do we see on	a sunny day?							
c. Which type of cle	oud do we see wh	nen it is raining or snowing	?						
d. Which type of cl	oud is thin, white	e, and high in the sky?							
e. Which type of clo	oud is very low in	the sky?							
Nimbus	Cumulus	Cumulonimbus	Stratus	Ci	irrus				
5. Are these se	ntences true	(T) or false (F)?							
a. A subtropical	climate has lo	w temperatures all yea	ur T	F					
b. In oceanic cli	mates, it rains	a lot all year long T	F						
c. Latitude is th	e distance bet	ween a place and the E	quator T		F				
d. On a weather	map, isobars	are lines which represe	ent the humi	idity of a					
place T	F								
e. A hygrometer	is used to mea	asure wind speed T	F						
f. Snow forms w	hen temperatı	ures are below 0°Celsiu	s T	F					
g. Air pressure i	s the force of t	he air pressing down o	n the Earth	T	F				
1. Til 1. ! . 1									
n. The nigher a	place is, the h	otter the temperature i	s T	F
