Helpful Tips for Teenage Drivers

- 1 As a teenager, do you ever dream of what it would be like when you get your driver's licence? Do you fantasize about picking up a friend and taking him or her to the movies? Well, although it will be a few years before you're legally able to get behind the wheel, here are a few tips for teenage drivers. Knowing them is important; following them when you get your first car is even more important. They may be the reason why you and your friend will arrive safely at your destination, wherever it may be.
- 5 Be aware of your surroundings at all times; take note of persons driving behind you.
Ensure that all tyres are properly inflated (extra care should be taken during the rainy season).
As the driver, be sure that you and your passengers are buckled up.
Always stay within the speed limit.
- 10 Be sure to obey all traffic signals.
Keep your music to a moderate level so that you can hear emergency service vehicles.
Pull to the side if you need to use your cell phone.
Do not eat or drink while driving.
Avoid driving alone, especially at night, and **NEVER** pick up strangers or hitch-hikers.
- 15 Keep your parents, the police and your family doctor's numbers stored in your phone for emergency purposes.
Always keep in the car a first aid kit stocked with necessary supplies.
Never throw trash from the car.
Do not place anything over your licence plate that may hide the numbers.
- 20 Be courteous to other drivers.
As much as possible, avoid 'road rage'.

Finally, plan to always drive defensively. Remember, driving is serious business. A car is not a toy; nor is it a weapon. The wheel will be in your hand. Be wise: drive to arrive alive.
