

I.E GIMNASIO LA SALADA

Resolución renovada 0027744 del 14 de marzo de 2018 DANE 405736000016

Sector la Salada Kilómetro 2 – Segovia (Antioquia)

Celular de contacto: 3148974194

Cognitive test of Natural science

First period

1. Write the note of your self-evaluation and JUSTIFY YOUR ANSWER

2. Recordando lo aprendido en el periodo, indicates if the following options are false (F) or true (T)

- | | | |
|---|---|---|
| a) Metals do not isolate electricity | F | T |
| b) Photoconductors conduct electricity in the presence of light | F | T |
| c) Plastic does not conduct electricity very well | F | T |
| d) When light is not added to metals, they stop conducting electricity | F | T |
| e) When sugar is added to water, there is more higher conductivity and the light turns on | F | T |
| f) When salt is added to the water, there is higher conductivity and the light turns on | F | T |

3. Make a summary in which you explain how you define matter, what is the chemical composition of matter and how you define the properties of matter. Use each space for each paragraph **(please, English and spanish)**
