When Santa Was a Boy

When Santa Claus was a boy
He liked to give other children toys.
Except for kids who weren't that nice
He filled their socks with ice.

He liked winter more than spring
He loved to laugh and loved to sing
Christmas carols were his favorite songs
He sang them all year long (fa la la la)

CHORUS:
Santa claus oh santa clause
What a funny boy he was
No one could quite understand
Till Santa was a man

He wasn't all that great in school
But in geography he ruled
He could name every home
from the North Pole to Rome

After school he liked to play
On his papa's winter sleigh
He was sure reindeer could fly
If someone would let them try

CHORUS

Always in a jolly mood
Christmas cookies were his favorite food
He liked to give more than receive
Especially on Christmas Eve

He always wore… red suits
He always wore … black boots
Even at the summer beach
He kept them within reach

CHORUS

He spent his weekends with the elves
Making toys all by themselves
They learned to make such wondrous things
While they'd laugh and sing (ha ha ha la la

Lots of kids thought he was strange
But they liked him just the same
His joyful heart and merry way
Brightened every day Ho Ho Ho Ho

CHORUS

CHORUS

Repeat last line:
No one could quite understand
Till santa was a man
