A few years ago I spent six months in Paris studying Art. My French wasn't very good. I had very little money and not many friends, but I really enjoyed living and studying there. But when I realized that I couldn't have simple pleasures like sitting in a cafe or going to the cinema, I began to feel lonely and miserable and I was getting very depressed. One evening a good friend of mine from Ireland arrived and insisted on taking me out for a meal. We went to a nice restaurant. I really loved the atmosphere, the noise, the people laughing, everything about it!

A few weeks later I got a good job, so I could eat in that wonderful restaurant twice a week! I'll never forget it or the first evening I went there for as long as I live.
