PHYSICS

WORKSHEET 2

Drag and drop the answer given below
at the appropriate blank

1. The normal temperature of human body is_____.

2. At very low temperature around 30K some conductors conduct electric current without any loss. These conductors are known as _____.

3. _____ is an instrument used for checking the intensity of light as perceived by the human eye.

4. _____ clocks are used in Global Positioning system (GPS) and Global Navigation Satellite system (GLONASS).

5. The principle of a quartz clock is the _____.

Piezo electric property of a crystal

Photometer

Atomic

98.4°F (or) 36.8°C

Super Conductors
