

Investigating Plants Growth Revision

1. Fill in the blanks.

a. Plants need a few conditions to grow well.

..... is to keep the plants firm. They will

..... if they don't have enough of it. It is also

needed by the plants to make food in

.....

b. Plants needand

.....to make food. Oxygen is also

needed by the plants to To grow

well, plants needplace, not too hot

nor too cold.

c. Plants kept in a dark place may at first grow

.....than plants kept in a bright place. To

search for, the plants kept in a dark

place use thestored in them so

that their stems can grow If they

cannot find any light, they will

eventually.
