

Investigating Plants Growth Revision

1. Fill in the blanks.

- a. Plants need a few conditions to grow well.

..... is to keep the plants firm. They will
..... if they don't have enough of it. It is also
needed by the plants to make food in
.....

- b. Plants needand

.....to make food. Oxygen is also
needed by the plants to To grow
well, plants needplace, not too hot
nor too cold.

- c. Plants kept in a dark place may at first grow

.....than plants kept in a bright place. To
search for, the plants kept in a dark
place use thestored in them so
that their stems can grow If they
cannot find any light, they will
eventually.
