*I was at home.*

d, (I / see / other / shoes / please/ can) \_\_\_\_\_?

*Yes, here you are.*

4pts.

### READING COMPREHENSION

**Read the text and answer the questions. Write answers.**

*Back to the future*

When our grandparents were watching *Star Trek* in the 1960s, Captain Kirk's communicator was just science fiction. But today, we use mobile phones just like them. It's no coincidence. Many scientists got their ideas from science fiction. In *Minority Report* (2002), Tom Cruise wore special gloves to operate a computer while he was searching for criminals. Today, we can do the same to play video games. Microsoft's *Kinect* will read your movements, so you don't need a controller to operate it!

In 1982's *Blade Runner*, Harrison Ford's character travelled through a future Los Angeles. There were advertisements with videos everywhere. People didn't have these in the 1980s, but now they are all over the world. Unfortunately, many of the companies in these adverts don't exist any more, including airline Pan-Am.

In the same film, Ford used a retina scanner to examine eyes. Twenty-five years later, UK airports use retina scanners to identify passengers on planes.

However, new technology isn't always successful. In *Total Recall* (1990), people were passing through an X-ray machine that identified anyone with a gun. Today, we've got this technology too, and it is used in some airports. Many people don't like the machines because they take pictures where you can see through people's clothes.

So, predicting the future is a difficult business, and films don't always get it right. A classic example is *Back to the Future Part II* (1989) where people were riding flying skateboards in 2015! This sounds ridiculous to us now, but when the film came out, many people believed that flying skateboards already existed!

1 What idea did scientists get from *Star Trek*? \_\_\_\_\_

2 What part of his body did Tom Cruise use to control a computer in *Minority Report*? \_\_\_\_\_

3 What technology appeared in *Blade Runner* that is used today? \_\_\_\_\_

4 What did the machine in *Total Recall* look for? \_\_\_\_\_

4pts.

LISTENING COMPREHENSION:

*Listen to Track 03 and answer the questions. Underline the correct answer.*

**1 When did Liam's mum join Facebook?**

last year

last week

today

yesterday

**2 How does Liam's mum know Julia?**

They are friends.

They have children at the same school.

They were at the same school.

They work together at the supermarket.

**3 What job does Jason Meere do?**

He's an actor.

He's an artist.

He's a journalist.

He's a politician.

**4 What was Harriet O'Connor like when she was a teenager?**

adventurous

confident

lazy

shy

**5 What does Liam upload?**

a comment

a blog entry

a photo

a video clip

**5pts.**
