

Do you have a favorite athlete? Do you consider anyone to be the fastest, the most talented or the strongest? Now you are going to read an anecdote from a person that went to the Olympics. Read carefully and choose the correct superlative for emphasis

I have always wanted to go to the top sports competitions in the world and the only way I could achieve it was by going to the Olympics. Last year, I finally had the chance, since the Olympics happened in my hometown, that's right, Brazil, Rio de Janeiro. In Brazil we have _____ soccer players and we are also _____ soccer team without a doubt but it is always good to watch some of _____ athletes leave everything on the battlefield.

I tried to go to _____ and _____ events. I went to the soccer matches off course. I also attended the track and field races, the diving competition and the gymnastics event, too.

At the soccer matches I was able to see _____ soccer player, Cristiano Ronaldo. He has to be one of _____ athletes in the world.

I was also lucky enough to witness the human bullet: Usain Bolt himself. He is _____ runner in the world. He was _____ after he won by a complete body in one of the races.

I went to the diving competitions, in my opinion, it has to be one of _____ and _____ disciplines in the world. _____ divers seem to be from The US the currently has 135 medals in diving, 49 of them being gold medals.

Finally. I entered the gymnastics competitions, I decided to watch this event because I admire how dedicated these athletes are. They have to be _____ to their discipline, they are _____ workers ever and this is the main reason I like this category of competition.

I hope that you can one day have this same experience, too. By the way, The USA also won the medal count in gymnastics. The USA was _____ country I suppose.
