READING COMPREHENSION

C. Someone talks about three friends. Read about them and answer the questions. Write Leila, Mike or Nora. The first one has been done for you.

When I first met **LEILA** ...

... she was living at home with her parents and doing a maths course at the local college. She had long dark curly hair and was engaged to a friend of mine called Ken. She was a non-smoker, and she was a really good tennis player. She cooked excellent steaks, too.

Now Leila teaches maths at a local school, and she looks completely different: she has short fair hair, and she smokes ten cigarettes a day. But she still plays tennis with her boyfriend Harry, and her steaks haven't changed at all!

When I first met **MIKE** ...

... he was living at home with his parents, and working in a bar. He didn't smoke (though everyone else in the bar did!) and he was engaged to a student called Zoe. I remember he was a very good footballer.

Now Mike works for a computer company, and he lives in a nice little flat with Zoe and their two young children. He's very busy, and they haven't got much money, so I don't see him very often – certainly he doesn't play in our football team any more. And he never goes in that bar – he says it's too smoky.

When I first met **NORA** ...

... she was studying medicine at the same college as me. There were five of us living in a flat. She worked very hard and didn't do any sports, and she was the only one of us who smoked. She had short dark hair, and she and her boyfriend Jim ate burgers and chips all the time.

Nora's still at college and still living in the same flat, but she's a completely different person: she doesn't smoke, she goes running and swimming every day, and she's a vegetarian. And she and Jim are getting married in the summer.

0	Who has cut their hair?	<u>Leila</u>
1	Who has stopped smoking?	
2	Who has changed jobs?	
3	Who has stopped doing sport?	
4	Who has started smoking?	
5	Who has stopped eating meat?	
6	Who has moved house?	
7	Who has got engaged?	
8	Who has left college?
