**Science**  
**Invertebrates-Worms**

The Venn diagram shows the characteristics of round worms and segmented worms.

**ROUND WORMS**

1. Have simple body systems
2. Have round, tube-like bodies

**SEGMENTED WORMS**

1. Have complex body systems
2. Bodies are segmented

1. Write **ONE** similarity between roundworms and segmented worms. (1)
2. Write **ONE** difference between roundworms and segmented worms. (1)

3. Choose the name of the group to which each worm belongs.

- (a) leech
- (b) tapeworm
- (c) hookworms

4. A roundworm was found living in the intestines of a cow.  
Which organism is the: (2)

- (a) parasite
- (b) host

5. What is **ONE** way human beings can avoid being infected by worms? (1)

6. Which worm can regrow its body parts? (1)

7. Which of the following worms is NOT a parasite? (1)
