

Memory game rules:

1. Some recordings are a word or phrase, others are their definitions.

Player A: click and listen to TWO recordings. If they match, drag their numbers to your score board. For example, if 2 matches with 9, drag 2 under 9, and drag 9 under 2. Then you get an extra turn.

2. If they do not match, it is player B's turn.

3. When you have matched all the numbers, the player with the most numbers in their score board is the winner!
