LUYỆN NÓI VỚI TỪ LIÊN KẾT

Although it rains but I still go to school

I am sick because it rains

My mother is very kind and beautiful

I like football but my brother likes tennis

Mary doesn't like pizza and spaghetti. She only likes instant noodles

She doesn't like me and I also don't like her

They hate me so I want to kill them

Do we go by train or by bus?

Do you want to eat pizza or do you want to eat sushi?

Because she is too beautiful so that man wants to marry her

She marries him because he has a lot of money

Although English is not easy but I still can speak English very well

Sometimes I feel like he does not love me, although he says he love me all the time

Do you want to eat it or do you want to die?

I don't eat grilled chicken, instead I eat steak, because I don't like chicken

Finally, you are here, thanks God, I need some money and your car because I will go out with my new girlfriend tonight

I go shopping and then I go to a café to see my friends

Usually she never lies, but this time I don't know why she lies to me

Because he goes out with another girl, so I want to break up with him

Although he gives me a lot of money, I still don't love him
