

# LUYỆN NÓI VỚI TỪ LIÊN KẾT

Although it rains but I still go to school

Although English is not easy but I still can speak English very well

I am sick because it rains

Sometimes I feel like he does not love me, although he says he love me all the time

My mother is very kind and beautiful

Do you want to eat it or do you want to die?

I like football but my brother likes tennis

I don't eat grilled chicken, instead I eat steak, because I don't like chicken

Mary doesn't like pizza and spaghetti. She only likes instant noodles

Finally, you are here, thanks God, I need some money and your car because I will go out with my new girlfriend tonight

She doesn't like me and I also don't like her

I go shopping and then I go to a café to see my friends

They hate me so I want to kill them

Usually she never lies, but this time I don't know why she lies to me

Do we go by train or by bus?

Do you want to eat pizza or do you want to eat sushi?

Because he goes out with another girl, so I want to break up with him

Because she is too beautiful so that man wants to marry her

Although he gives me a lot of money, I still don't love him

She marries him because he has a lot of money
