WELCOME TO THE NORTH POLE

It's snowing and you are surrounded by ice. Then a polar bear and six penguins come up to say hello. You turn around and see a walrus sunbathing and relaxing next to the pine trees, and in the ocean, behind some icebergs, a whale shows up from the water. Suddenly, you hear some bells ringing up in the sky. What is that? Is it a bird? Is it a plane? It's a reindeer with twenty bells on his neck.
