

Leads School Of Computing
South Circular rd.-Kurunegala
Mrs. Sasika Fernando

Speed and Efficiency

It produces consistent output when the same input is given.

Accuracy

it cannot take decisions on its own like a human being.

Reliability

Though the initial cost is high, the maintenance cost is not so

Consistency

It can store a large amount of data. It can obtain them at any given time for any process.

Storage Capacity

It can provide correct information when correct instructions and data are given.

Cost

You can rely on the process and the output.

Intelligence

It can finish any given task within a very short time.
