Trip to the hospital

This morning on the way to school I fell and I hurt my arm. My mother asks for a taxi to go to the hospital. The taxi driver left us at the door 15 minutes ago. When we entered, Maria received us and we told her what happened to me, she is a nurse. The doctor saw me quickly and said I had a broken bone. I went back with Maria to cast my arm and she even drew me a unicorn. All the people who helped me this morning are working in the tertiary sector.

1. Choose the correct option:

- Doctors, nurses and taxi drivers work in the sector:
- Where does Maria work, the nurse?
- The doctor works at the hospital with

A day with my uncle Antonio

My mother's brother is a farmer and he has invited me to visit his farm. He has many animals like cows and goats and also has a very large orchard where he plants tomatoes. Today I will work with him, we will pick the tomatoes and we will milk the cows, that is to say, we will collect the raw materials that nature gives us. My uncle says that working in the primary sector is very hard.

Then, the truckers will come to take these materials to the factories where they will transform them. They make cheese with the milk of the cows and fried tomato with tomatoes.

1. Join the two columns with arrows:

Antonio works	raw materials are processed.
In the factories	the farmer.
In the primary sector works	on a farm.
In the tertiary sector works	The trucker.

2. Match each photograph to the right sector:

Primary sector Secondary sector Tertiary sector

3. Locate in the wordsearch the 5 professions:
