

Name: _____ Date: _____

Task: Say: *Science teaches about plants. The story needs a title. Which title best describes the paragraph?*

?

Flowers get their food from the sun in the sky and the soil in the ground. The sunlight helps the leaves create food and it makes them green. The rain goes into the soil and then the plant drinks the water.

Which title best describes this paragraph?

How Plants Eat and Drink

Birds

Whales

Level 4 Passage

1

PMC Method Used: _____
Completed Task: Yes _____ No _____

Name: _____ Date: _____

Task: We are going to read a nonfiction paragraph about plants. Plants live on earth. Nonfiction means the story is true and not made-up. The facts are true. Three words are underlined. They are (point and read) roots, leaves and stem. Follow along reading with me as we read. (not scored)

Parts of a Plant

The three main parts are: the **roots**, the **leaves**, and the **stem**. Each part has a set of jobs to do to keep the plant healthy. The **roots** absorb water and minerals from the soil and **anchor** the plant in the ground. The **stem** supports the plant above ground, and carries the water and minerals to the **leaves**.

roots

leaves

stem
