

### ***Get ready for a Short Test***

**1. Put the verbs into the right tense to form the First Conditional (After 'if' use the Present Simple and will/won't in the second part of the sentence).**

**Example:** If we ..... **come** ..... (come) to the party, you ..... **will have** ..... (have) fun.

1. Dad ..... (be) angry if we ..... (get) home late.
2. If you ..... (come), we ..... (have) a good time.
3. I ..... (punish) you if you ..... (not/stop) fighting.
4. If he ..... (break) anything, he ..... (have to) pay for it.
5. If she ..... (miss) the bus, she ..... (take) a taxi.
6. You friend ..... (forgive) you if you ..... (apologize).
7. If you ..... (not/leave) now, we ..... (call) the police.
8. If Jenny ..... (go) shopping, she ..... (spend) a lot of money.
8. If they ..... (not/invite) us, we ..... (not/go).
10. If you ..... (be/ not) careful, you ..... (break) the vase.

**2. Use the prompts to make speculations and predictions about the future. You need to add some extra word/words (use 'may, might, could' for sentence 3, 4 and 7).**

1 We / probably / find / a cure for AIDS.

5 People / work / for much longer.

2 I / sure / people / live / until they are 150 years old.

6 I / doubt / we / live / healthier lives.

3 We / have / more specialist hospitals.

7 Children / learn / how to their health.

4 Scientists / grow / new body parts.

8 Doctors / definitely / use / more technology.

**3. Use the phrases below to complete the text.**

could stay	develop	might have	wants to change	will definitely be
will probably check	will reduce	won't visit		

In the future, if we \_\_\_\_\_ the technology, people with long-term illnesses \_\_\_\_\_ their doctor. They \_\_\_\_\_ at home and communicate with their doctor online. They \_\_\_\_\_ special machines at home to help them with their treatment. These machines \_\_\_\_\_ the patient's health regularly. If the doctor \_\_\_\_\_ the treatment, he will use his computer to send the changes to the machine in the patient's home. I'm sure that this \_\_\_\_\_ the cost of healthcare and I think people \_\_\_\_\_ happier to stay at home when they are ill.
