

Mathematics

Revision 4

1. Solve the following word problems.

Zion has **7 trucks**.

Shawn has **4 trucks**.

How many trucks they have **in all**?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

Kayla made **9 cookies**.

She ate **5 cookies**.

How many cookies were **left**?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

2. Place the **months of the year** in the correct order.

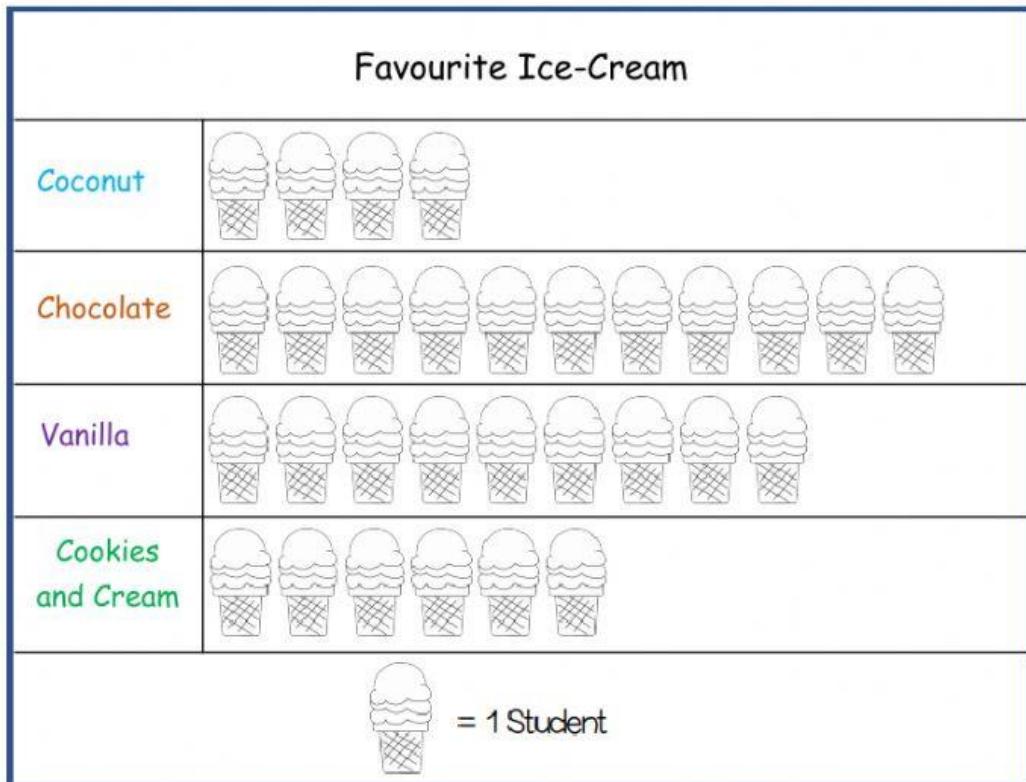

1	2	3	4
---	---	---	---

5	6	7	8
---	---	---	---

9	10	11	12
---	----	----	----

January	June	July	September
October	August	February	November
April	May	December	March

3. Answer the following questions about the pictograph.

1. How many students like **Vanilla ice-cream**? _____
