

ΠΡΟΣΘΕΣΕΙΣ ΩΣ ΤΟ 100

Κάνε εύκολα τις προσθέσεις, ξεχωρίζοντας μονάδες και δεκάδες:

$$15+14=(10+10)+(5+4)=20+9=29$$

$$21+35=(20+30)+(1+5)=50+6=56$$

$$15+15=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$64+22=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$48+52=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$53+24=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$45+45=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$25+32=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$38+62=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$15+75=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$

$$46+14=(\dots + \dots)+(\dots + \dots) = \dots + \dots = \dots$$
