Using Synonyms to Paraphrase

WHY USE A THESAURUS?

TO MAKE YOUR WRITING MORE INTERESTING

- Another way to think of a Thesaurus is as a book of word choices.
- Understanding how to use word choices, or synonyms, is one of the secrets of good writing.
- Maybe your teacher has told you that you use the word *weird* too often in your writing.
- Instead, you could use *bizarre*, *eerie*, *odd*, *peculiar*, *strange*, or *unnatural* to make your writing more interesting and entertaining.

CHOOSING AN APPROPRIATE SYNONYM

- Match the part of speech – noun, verb, adjective, adverb

Fat *noun* ◆ grease, oil ◆ lard, tallow

French fries contain a lot of (fat) grease.

adjective ◆ heavy, obese, overweight, plump

The fish they caught was extremely (fat) plump.

- Sometimes we need to add or change a preposition.

- In choosing a synonym we have to match the part of speech to the word we are replacing.
- We also have to find a synonym that doesn't change the meaning or intent of the sentence.

Don't just choose **any** synonym...
