## Independent Practice

Use counters to find the number of equal groups or how many are in each group.

4. 28 counters  
4 equal groups

\_\_\_\_\_ in each group

So,  $28 \div 4 =$  \_\_\_\_\_, or  $4 \overline{)28}$  .

5. 4 counters  
4 equal groups

\_\_\_\_\_ in each group

So, \_\_\_\_\_  $\div$  \_\_\_\_\_ = \_\_\_\_\_ or  $4 \overline{)4}$

Use repeated subtraction to divide.

6.  $8 \div 4 =$  \_\_\_\_\_

7.  $16 \div 4 =$  \_\_\_\_\_

**Algebra** Draw an array and use the inverse operation to find each unknown.

8.  $? \times 6 = 24$

■  $\div 4 = 6$

? = \_\_\_\_\_

■ = \_\_\_\_\_

9.  $8 \times ? = 32$

$32 \div 4 =$  ■

? = \_\_\_\_\_

■ = \_\_\_\_\_
