

## SUMMA KORRUTAMINE ARVUGA

Kahekohalise arvuga korrutamisel jagan mõttes arvu kaheks osaks. Korrutan mõlemad osad esimese arvuga ja siis liidan need.

$$5 \times 18 = \underline{\underline{5 \times 10 + 5 \times 8}} = \underline{\underline{50 + 40}} = 90$$

**1. Kirjutasin esimesed tehted ise ära. Arvuta lõppvastus.**

$$3 \times 17 = 3 \times 10 + 3 \times 7 = 30 + 21 =$$

$$4 \times 13 = 4 \times 10 + 4 \times 3 = 40 + 12 =$$

$$6 \times 12 = 6 \times 10 + 6 \times 2 = 60 + 12 =$$

$$2 \times 24 = 2 \times 20 + 2 \times 4 = 40 + 8 =$$

**2. Ühenda omavahel sobivad tehted joonega**

$$6 \times 14 \qquad \qquad \qquad 4 \times 10 + 4 \times 8 \qquad \qquad \qquad 60 + 30$$

$$6 \times 15 \qquad \qquad \qquad 7 \times 10 + 7 \times 9 \qquad \qquad \qquad 70 + 21$$

$$7 \times 13 \qquad \qquad \qquad 4 \times 20 + 4 \times 2 \qquad \qquad \qquad 40 + 32$$

$$7 \times 19 \qquad \qquad \qquad 7 \times 10 + 7 \times 3 \qquad \qquad \qquad 80 + 8$$

$$4 \times 22 \qquad \qquad \qquad 6 \times 10 + 6 \times 4 \qquad \qquad \qquad 60 + 24$$

$$4 \times 18 \qquad \qquad \qquad 6 \times 10 + 6 \times 5 \qquad \qquad \qquad 70 + 63$$

**3. Kirjuta tehtesse puuduvad arvud.**

$$2 \times 18 = 2 \times \underline{\underline{+ 2 \times}} = 20 + 16 =$$

$$3 \times 15 = 3 \times \underline{\underline{+ 3 \times}} = 30 + 15 =$$

$$4 \times 19 = 4 \times \underline{\underline{+ 4 \times}} = 40 + 36 =$$

$$5 \times 18 = 5 \times \underline{\underline{+ 5 \times}} = \underline{\underline{= + =}}$$

$$8 \times 12 = 8 \times \underline{\underline{+ 8 \times}} = \underline{\underline{= + =}}$$

$$2 \times 25 = 2 \times \underline{\underline{+ 2 \times}} = \underline{\underline{= + =}}$$

$3 \times 22 = \underline{\quad} + \underline{\quad} = \underline{\quad} + \underline{\quad} =$

$4 \times 16 = \underline{\quad} + \underline{\quad} = \underline{\quad} + \underline{\quad} =$

$9 \times 12 = \underline{\quad} + \underline{\quad} = \underline{\quad} + \underline{\quad} =$

**4. Arvuta vastused. Vahepealsed tehted tee peast.**

$4 \times 19 =$

$2 \times 32 =$

$5 \times 12 =$

$7 \times 14 =$

$6 \times 13 =$

$8 \times 12 =$

Olid tubli!

Vastuseid pole mulle vaja saata.

Kui sul oli kontrollimisel palju vigasid, siis tee tööleht uuesti.
