

Cuantos cubos hay en cada figura:(recuerda contar la base, el fondo y la altura)

Halla el volumen de un cubo de 3m de arista

La formula es: base x altura x profundidad

Completa:

5 m= cm; 43dm = mm; 53mm = dm

66dam = dm; 450 hm = kn 27 km = cm

3 m² = dm²; 3 km² = m²; 5cm² = m²

78000 cm² = cm²; 20400 m² = km²; 500000 hm² km²

¿Pasa a segundos?

12h = 43 minutos = 38 minutos = 1 día =

Suma o resta.

24 h 33' 44"
+ 5 h 22' 33"

33º 4' 56"
+ 7º 15' 28"

4 h 32' 53"
- 2 h 50' 32"

67º 46' 28"
- 43º 48' 32"
