decenas = unidades

70

setenta

decenas = unidades

80

ochenta

decenas = unidades

90

noventa

decenas = unidades

2 Escribe el número.

Fourteen red blocks are shown. Next to them is a place value chart with 'D' (Decenas) and 'U' (Unidades) columns, and an empty box below. To the right, a ten-frame with ten red beads is shown. Next to it is another place value chart with 'D' and 'U' columns, and an empty box below. To the right of that, the text '2 decenas' is written, followed by an empty box.

3 Escribe cómo se lee cada número.

The number 40 is in a circle, followed by a green arrow pointing to a three-line box. The number 90 is in a circle, followed by a green arrow pointing to a three-line box.

4 ¿Cuántos caramelos de cada sabor hay? Escribe.

Three jars of red candies are shown, each labeled '10'. A green arrow points to an empty box. Six jars of orange candies are shown, each labeled '10'. A green arrow points to an empty box.

5 Contad por turnos, en voz alta, de 10 en 10. 🧑🧑

¿Quién tiene más dinero?

Pedro

Irene
