

1 Escribe el número correspondiente.

Two sets of base-ten blocks and place value charts are shown. The first set consists of five vertical rods of red blocks, representing 50 units. Next to it is a place value chart with 'D' (Decenas) and 'U' (Unidades) columns, and a box below for the answer. The second set consists of a single rod of red blocks with 10 beads, representing 10 units. Next to it is a similar place value chart and answer box. To the right, the text '2 decenas' is written next to an empty answer box.

2 Escribe el número con letra.

The number 40 is shown in an orange circle, followed by a green arrow pointing to a three-lined rectangular box for writing the number in words.

The number 90 is shown in an orange circle, followed by a green arrow pointing to a three-lined rectangular box for writing the number in words.

3 Escribe cuántos caramelos hay en total.

Three glass jars containing red candies are shown. Each jar has a white label with the number '10'. A green arrow points from the jars to an empty rounded rectangular box for the total count.

Seven glass jars containing orange candies are shown. Each jar has a white label with the number '10'. A green arrow points from the jars to an empty rounded rectangular box for the total count.
