

TAREA EN CLASE

Calcular el perímetro y área de los siguientes polígonos regulares:

$$P = l + l + l + l + l + l$$

$$P = \quad \text{cm}$$

$$A = \frac{P \times a}{2}$$

$$A = \quad \text{cm}^2$$

$$P = n \times l$$

$$P = \quad \text{cm}$$

$$A = \frac{P \times a}{2}$$

$$A = \quad \text{cm}^2$$

$$P = n \times l$$

$$P = \quad \text{cm}$$

$$A = \frac{P \times a}{2}$$

$$A = \quad \text{cm}^2$$

$$P = l + l + l + l + l$$

$$P = \quad \text{cm}$$

$$A = \frac{P \times a}{2}$$

$$A = \quad \text{cm}^2$$
