Usain St Leo Bolt	1
Usain St Leo Bolt, is one of the most naturally gifted athletes the world has ever seen. He is 6 foot 5 inches tall (1.98 metres) and has muscular arms and broad shoulders.	2
In school in Jamaica, Usain won a bronze medal in the 80 hurdles in Class Three and also competed in the high jump and cricket as a fast bowler, but his running was his strength. At 14 years old, Usain surprised people by winning regional championships in western Jamaica and in the wider Caribbean. He started seriously competing in sports at age 16.	3
Usain's journey to fame started at the 2008 Olympic Games in Beijing where he won the 100m, 200m and 4 x 100m, and beat the world record. In 2012, he won three gold medals in the same events at the Olympic Games, in London. Then one day before his 30th birthday he won the same triple at the 2016 Olympic Games in Rio and became the World's fastest man. (The 'Triple Triple' - three gold metals, at three consecutive Olympic Games.)	4
Usain says he is a lazy man who likes watching action movies on TV. He says when he is at home he calls someone to come upstairs just to give him the TV remote control. He says he loves competing. It is the competition that makes him want to win but as he is now getting older he doesn't feel the same kind of motivation he had when he was younger and is thinking of retiring.	5
He says he will live in the country when he retires because he loves the quiet and peacefulness of the countryside. He likes dirt bikes, football, nature and just chilling.	6
