Reading

11 Read the text. Then choose the correct answers. ____/4p

MORE AND MORE ...

Will there be food for everyone in the future? In the year 1800 the population of the world was about one billion. In 1950 there were two and a half billion people on the Earth, and by 2008 there were nearly seven billion. In 2040 there will probably be nine billion people in the world.

Some scientists think that there won't be enough food for everyone in the future. But some optimistic scientists think that in the future things will be fine, because people will have more intelligence and knowledge. These scientists think that people will learn to grow more food, so there will be food for everyone in the future..

1 How many people were there in 1800?
a 1,000,000,000 **b** 1,000,000

2 When were there about 7,000,000,000 people?
a 1950 **b** 2008

3 Some scientists think that in the future … .
a not everyone will have food
b food will be very different from today

4 Other scientists think that people will … .
a not know what to do **b** be more intelligent
