

Find the Area and Perimeter for the following.

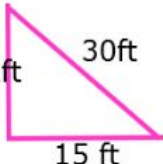

1.   $A = \underline{\hspace{2cm}}$   $P = \underline{\hspace{2cm}}$

2.   $A = \underline{\hspace{2cm}}$   $P = \underline{\hspace{2cm}}$

1.   $A = \underline{\hspace{2cm}}$   
 $P = \underline{\hspace{2cm}}$

2.   $A = \underline{\hspace{2cm}}$   
 $P = \underline{\hspace{2cm}}$

3.   $A = \underline{\hspace{2cm}}$   
 $P = \underline{\hspace{2cm}}$

4. Calculate the area and perimeter for a rectangle with side 15m and 10m.  
 $A = \underline{\hspace{2cm}}$   $P = \underline{\hspace{2cm}}$

5. Calculate the area and perimeter for a square with a side of 6 cm.  
 $A = \underline{\hspace{2cm}}$   $P = \underline{\hspace{2cm}}$

6. Calculate the area and perimeter for a right angle triangle with  $h=29m$ ,  $b=15m$  and  $c=25m$ .  
 $A = \underline{\hspace{2cm}}$   $P = \underline{\hspace{2cm}}$
