Name: _____ Date: _____

Mathematics Homework

Estimation Sums and Difference

Estimate. Then add or subtract.

Example: 67 - 24 =   70 - 20 = 50

1. Sue ran 57 miles. Pat ran 42 miles. How many miles did they run altogether?

2. Kelly bought 82 laptops. She gave away 69 laptops. How many laptops does she have left?

3. Tim built 45 houses. He sold 12 houses. How many houses does he have left?

4. Betty collected 54 coins last week and 37 coins this week. How many coins did she collect?

5. John has 78 music CD's. He gave away 32 of his CD's. How many CD's does he have left?
