

Preverim svoje znanje

DZ str. 15, naloge 1, 2, 3

1. Pretvori v ustrezno mersko enoto.

$$56 \text{ l} = \text{ } \text{ d\ell}$$

$$2 \text{ h} = \text{ } \text{ min}$$

$$5 \text{ dag} = \text{ } \text{ g}$$

$$23 \text{ €} = \text{ } \text{ centov}$$

$$400 \text{ dag} = \text{ } \text{ kg}$$

$$2000 \text{ centov} = \text{ } \text{ €}$$

$$34\,000 \text{ kg} = \text{ } \text{ t}$$

$$300 \text{ cm} = \text{ } \text{ dm}$$

2. Izrazi v ustreznih merskih enotah.

$$4 \text{ kg } 15 \text{ dag} = \text{ } \text{ dag}$$

$$7 \text{ t } 300 \text{ kg} = \text{ } \text{ kg}$$

$$6 \text{ h } 3 \text{ min} = \text{ } \text{ min}$$

$$5 \text{ € } 15 \text{ centov} = \text{ } \text{ centov}$$

$$72 \text{ m } 4 \text{ dm} = \text{ } \text{ dm}$$

$$25 \text{ l } 9 \text{ d\ell} = \text{ } \text{ d\ell}$$

$$760 \text{ l} = \text{ } \text{ hl } \text{ } \text{ l}$$

$$7\,981 \text{ m} = \text{ } \text{ km } \text{ } \text{ m}$$

$$206 \text{ s} = \text{ } \text{ min } \text{ } \text{ s}$$

$$85 \text{ g} = \text{ } \text{ dag } \text{ } \text{ g}$$

$$555 \text{ centov} = \text{ } \text{ € } \text{ } \text{ centov}$$

$$12\,523 \text{ kg} = \text{ } \text{ t } \text{ } \text{ kg}$$

Najprej vedno spremeni v isto enoto! Nato napiši ali je : $<$ $>$ $=$

3. Vstavi ustrezen znak $>$, $<$ ali $=$.

$$56\,000 \text{ l} \text{ } 56 \text{ hl}$$

$$45 \text{ h} \text{ } 2 \text{ dni}$$

$$709 \text{ mm} \text{ } 70 \text{ cm}$$

$$569 \text{ kg} \text{ } \text{ t}$$

$$1\,248 \text{ centov} \text{ } 124 \text{ € } 8 \text{ centov}$$
