

Area of a triangle

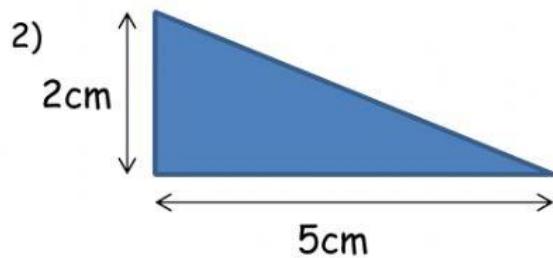

Work out the area of the following triangles.

Hint: Area of triangle = $\frac{\text{base} \times \text{height}}{2}$

$$\begin{aligned} &= \frac{5 \times 4}{2} \\ &= \frac{20}{2} = \end{aligned}$$

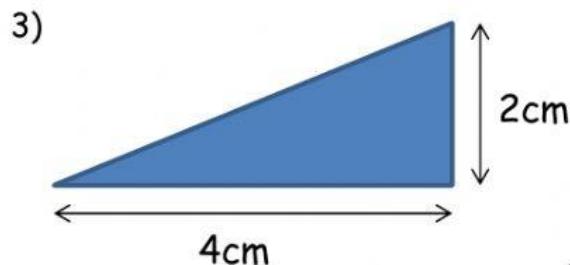

Answer: cm

Hint: Area of triangle = $\frac{\text{base} \times \text{height}}{2}$

$$= \frac{5 \times 2}{2}$$

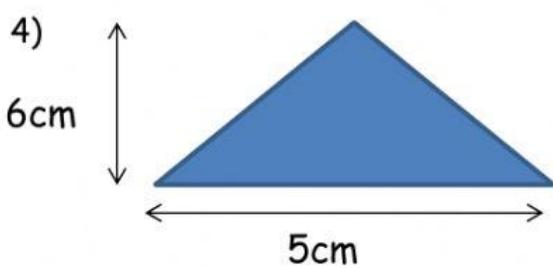

Answer: cm²

Hint: Area of triangle = $\frac{\text{base} \times \text{height}}{2}$

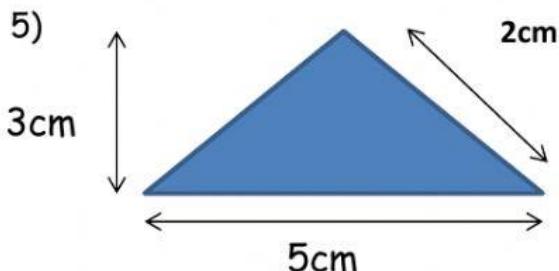

$$= \frac{2 \times 4}{2}$$

Answer:

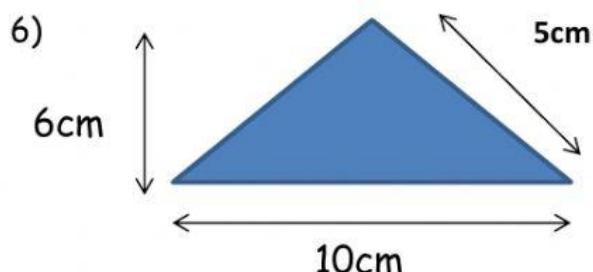

Hint: Area of triangle = $\frac{\text{base} \times \text{height}}{2}$

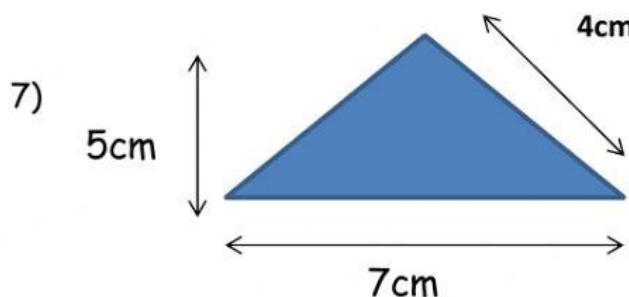

Answer:

Answer:

Answer:

Answer:

8)
