Cultural Tourism

Cultural tourism is a subgroup of Tourism. The center of interest of cultural tourism is the culture. Each culture has its own language, clothing and values. Cultures have their own values, like family, friendship, and education. They have their own beliefs. We all love to dance, play musical instruments and sports. All these elements are part of culture.

Cultural tourism includes tourism in urban areas, particularly in historic or large cities and their cultural facilities such as museums and theaters. It can also include tourism in rural areas with a particular interest in the traditions of indigenous cultural communities: their festivals, rituals, their values and habits. Cultural tourists spend more money than regular tourists. This form of tourism is becoming more popular.
