At first I was afraid, I was

Kept thinking I could never through Canvas all the time
But then I spent so many nights the help docs for so long
And I grew
And I learned how to get
And so I am back , students are
As all my colleagues try to out how to get along

I should have kept up with the , not that class on course design

If I had known for just one second I would be teaching all online

Go now go leave me alone, I've got to figure out just how to using Panopto

They gave me two days to , to move everything online
Did you think I would crumble
Did you think I'd lay down and die?

Oh no, not I, I will survive
Oh, as long as I know how to Zoom, I know I'll stay alive
Oh my students still will learn and my I will earn
I will survive, hey, hey

It took all the I had not to lay down and die
Kept trying hard to the of my syllabi
And I spent oh-so many nights just feeling sorry for myself
I used to cry
But now I hold my head up and you see me
teaching on Zoom
but just don't into the mic or every eye will be on you

I cant hear you your are on mute
Your camera is still black are you still there?

We have got some to work out
But I know my grading scheme is fair

Go on now, go, walk out the door
Trying to get this lecture done
and I am already on take four

Now the network has gone down
and I am all out of

Do you think I would ?
Did you think I'd lay down and die?

Oh, no, not I....
