JANE GOODALL

Family

JANE WAS born in London on 3rd April 1934. JANE's FATHER WAS A BUSINESSMAN AND her mother WAS AN AUTHOR. JANE HAD one sister, Judith. When JANE WAS older, she got MARRIED AND in 1967 she HAD A SON CALLED Hugo.

Early life

When JANE WAS A child she PLAYed with toy ANIMALS AND she HAD A toy CHIMPANZEE THAT she loved. She WAS ALWAys dREAMING ABOUT going to AFRICA to see ANIMALS. In her EARLY twenties, she HAD lots of different jobs BECAUSE she WANTED money for her trip. When she WAS 23, she went to AFRICA on HOLIDAY. She loved AFRICA AND decided to STAY.

Career

JANE studied CHIMPANZEEs in AFRICA. In 1960, she MADE AN important discovery. CHIMPANZEEs were using PLANTS AS tools! Before this, everyone thought only HUMANS used tools. JANE protected CHIMPANZEEs for MANY YEARS. She ALSO wrote books AND ARTICLES ABOUT her work.

Today

JANE travels AROUND the world, SPEAKING to students AND TEACHING people ABOUT how we must protect our wildlife.
