ENGLISH CLASS XI

## FACTUAL REPORT

### Student's Identity

Name :

Class :

# PRE – ACTIVITIES

**Material : Factual Report**  
**Class : XI**

## **BASIC COMPETENCY :**

**To analyse the structure of Factual Report text and its language features by giving and asking the factual information about people, animals, things, the natural events or social symptoms based on the context.**

## **GOALS/PURPOSES OF LEARNING :**

**The students are able to finish the digital worksheets about Factual Report well based on the types of questions by reading the instructions given.**

## **INDICATORS :**

- ✓ **The students can get more information about Factual Report.**
- ✓ **The students can fill the incomplete sentences after watching the video.**
- ✓ **The students can match the pictures and phrases by joint with arrow.**
- ✓ **The students can choose the correct answer of the questions given.**
- ✓ **The students can drag the words given below and drop them in the suitable sentences.**

### The Example of Factual Report

Covid-19 in Indonesia Covid-19 is an infectious disease caused by a newly discovered virus namely SARS-Cov-2. This virus first appears in Wuhan, China and eventually spreads in many countries, including Indonesia.

In Indonesia, the first case of Covid-19 reported on March 2, 2020. After WHO declaring Covid-19 a pandemic, all the activities such as working and studying are done in homes.

However, the case of novel coronavirus keeps growing. In the end of March, the total case of this disease reaches 1528 cases. To respond to this pandemic, UNICEF has been leading efforts with the government, the World Health Organization and other partners.

The President also issued regulations regarding the pandemic. Government Regulation No. 21/2020 is issued to regulate the large-scale social restrictions or PSBB and is implemented in coordination and collaboration with various parties, in accordance with statutory provisions.

3. Social ..... is important to prevent the spread of Covid -19.

## Joint with Arrow

Please match the pictures and phrases below.

Using a Mask

Washing Hands

Social Distancing

## Multiple Choice

**Please choose the correct answer of the following questions based on the text.**

### Covid-19

Covid-19 or Coronavirus Disease-2019 is an infectious disease caused by a new virus called SARS-Cov-2. This disease first identified in Wuhan, China, in the end of 2019. The virus widely spread over many countries and then in March 2020, WHO declared Covid-19 a pandemic. This disease attacks respiratory system. Covid-19 also makes people who get infected experience several symptoms. The common symptoms are fever, dry cough, and tiredness. Some also experience aches, sore throat, diarrhea, conjunctivitis, headache, and loss of taste or smell. Meanwhile the serious symptoms are shortness of breath, chest pain, and loss of speech. However, there are many who do not experience symptoms. It takes about 5-6 days to the symptoms to show. However, the incubation period takes 14 days. People who has mild to moderate illness usually can recover without hospitalization. Meanwhile those who experience serious symptoms have to seek medical attention. The virus spreads through the droplets when infected people sneeze or cough. Therefore, WHO gives the way to prevent infection such as washing hands regularly with soap and water, avoiding touching face, covering mouth and nose while sneezing or coughing, staying at home, refraining from smoking, and practicing physical distancing.
