

## Grade 3 : Lesson 3

### Divide by 6 and 7

Find each quotient :

$$18 \div 6 = \underline{\quad}$$

$$24 \div 6 = \underline{\quad}$$

$$30 \div 6 = \underline{\quad}$$

$$36 \div 6 = \underline{\quad}$$

$$66 \div 6 = \underline{\quad}$$

---

There are 48 candies that will be shared between 6 friends.

How many candies will each friend receive if they share them equally?
