In a survey of 2,000 British kids in a teenage magazine, the kids voted that science teachers are the(boring) of all. The(popular) subjects in the survey are art, PE and English. English is(popular) than maths. That's possibly because many students find maths(difficult) than English and their maths marks are(bad) than their English marks. For the majority of students PE is the(easy) subject of all, and the(funny)! 16% of the kids love school and 70% think it's OK-it's(good) than staying at home all day. Perhaps the(bad) thing of all about school is homework. Most 15-year-old students spend 1 hours 28 minutes on homework each week.
