Solve these problems.
Make sure that you write out the whole number sentence in the box.

1. Sofia the snake is twice as long as her sister Sandra. How long is Sofia?

Sandra the snake

50cm

2. Aunt Sara the snake is three times the length of Sandra. How long is she?

Complete the table for the Tapir family:

	Tomas Tapir Facts	Tania Tapir (Three times the size)	Mum Tapir (Four times the size)	Dad Tapir (Eight times the size)
Height	20cm	20cm × 3 = 60cm	20cm × 4 = 80cm	20cm × 8 = 160cm
Body Length	30cm			
Mass	40kg			
Tail Length	3cm			

3. Work with a partner. Measure your height, length of your foot, length of your hand and circumference of your head. Work out what these measurements would be for someone exactly twice your
