

Q.1. Write **T** for correct statement and **F** for wrong statement.

1) Are the sentences *true* or *false*?

- a Sound travels in waves. \_\_\_\_\_
- b Sound does not travel in space because there is no gravity there. \_\_\_\_\_
- c Sound can travel in all directions. \_\_\_\_\_
- d Sound can travel through different materials. \_\_\_\_\_
- e Sound travels slower through water than through air. \_\_\_\_\_
- f Large vibrations are perceived as soft sounds. \_\_\_\_\_

MEDIUM	VIBRATES	VACCUM	LIQUID	HIGH	SOFT
--------	----------	--------	--------	------	------

2) Complete the text with information about today's lesson. Review the explanation first if you need it... 😊

P.S: USE CAPITAL LETTERS

When an object \_\_\_\_\_, it produces sound  
These vibrations travel through a \_\_\_\_\_  
(solid, \_\_\_\_\_ or gas) to our ears, and that is how we  
can listen. If there is not a medium, then we have a  
\_\_\_\_\_ (like in space).

Loud sounds have \_\_\_\_\_ vibrations, whereas  
\_\_\_\_\_ sounds have small vibrations.

Thank you for doing it!
